Audit Management

Discover and resolve issues by building a continuously improving Quality Management System (QMS) by digitally transforming your audit management process – from audit planning and preparation to audit report and closure

MAKE IT EASY FOR PEOPLE TO DRIVE EFFICIENCY AND EFFECTIVENESS INTO THE AUDIT MANAGEMENT PROCESS

With CQ's Audit Management Software, we ensure companies have the ability to build a flexible, scalable, and configurable audit management workflow. Depending on the specific needs of your organization, you can easily configure workflows for simple or complex processes and leverage AI to accelerate your audits.

Create, schedule and manage your audit program using the calendar view available in the CQ platform and easily integrate with Outlook or Google Calendar. CQ's Audit Management simplifies collaboration between stakeholders and helps you build a data-driven QMS workflow that enables Continuous Improvement (CI) throughout the organization. Our Audit Checklist feature helps quality leaders identify "gaps", take preventive action, and stay compliant--in less time.

Audit Leader

Enable audit scheduling for auditing the supply chain, internal operations, and regulatory compliance

Audit Coordinator

Schedule audits at a predefined frequency for key suppliers, R&D, manufacturing, testing

Auditors

Accelerate the full audit process, access past audit data, and gain better audit readiness

Support Your Entire Organization

Operations/ Supply Chain

Improve adoption and compliance through an intuitive user interface

Management

Review and analyze the effectiveness of the audit program and the state of compliance

Audit Management Features

Planning and Scheduling

Plan and schedule audit by site, department, or suppliers

Supplier Portal and Interaction

Consolidate all quality data for suppliers so they can interact and respond promptly to audit findings

Preparing for an Audit

Help Auditors prepare with automatically notifications of upcoming audits and access to past audits, open findings, critical findings, and CAPAs

External Responses

Track external responses to audit findings from suppliers, customers and internal teams

Conducting Audits

Take notes, document findings, categorize relevant findings, anywhere, on any device

Audit Finding Response

Document audit finding responses along with related investigations and actions

Findings Documentation and Categorization

Document findings, attach evidence, and categorize them easily and compliantly

Collaboration

Solicit feedback from the your supply chain without giving up ownership of tasks

Audit Report Generation

Generate as many audit reports as needed using pre-built audit templates

Mobile Access

Access your CQ Audit Management solution on the go, anywhere, anytime and on any device

Findings Policy

Set up policies to findings based in audit and finding type

Reporting and Analytics

Utilize pre-developed best-practices-based reports and create additional reports and dashboards

Risk Assessment

Capture the risk profile during the audit planning phase and review as per audit findings

Social Like & Follow

Like and follow relevant records in the system and be notified via email, dashboard, and mobile to stay abreast of developments

Escalation to CAPA

Prioritize findings and initiate CAPA based on built-in risk assessments

With ComplianceQuest, we have been able to build a solid foundation. If an audit is conducted, everything is transparent. The auditor can easily see that what we do complies with the necessary requirements.

It's easy to implement, extremely configurable, and the software adjusts to follow your procedures. The interface is great and it's effortless to navigate as there aren't a lot of steps to complete a task. ComplianceQuest provides excellent customer service and support and is always available when you need them.

Quality Systems Manager, Establishment Labs

Achieve Your Quest for Digital Operations

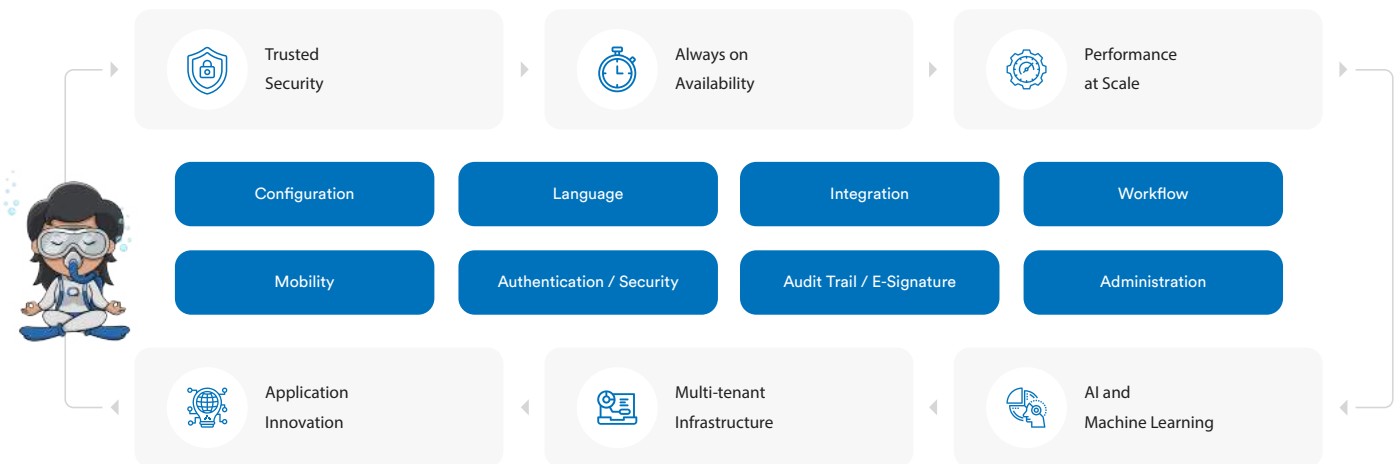

CQ intelligently automates operations from product innovation to customer success

CQ Solutions Powered by Platform

100% modern cloud infrastructure supports innovation

ComplianceQuest is a 100% native force.com application suite. As such, ComplianceQuest solutions inherit all attributes of the Salesforce platform.

About ComplianceQuest

Transform to a fully connected business with a **next-generation AI-Powered Product Lifecycle, Quality and Safety management platform, built on Salesforce**. Our connected suite of solutions helps businesses of all sizes increase quality, safety and efficiency as they bring their products from concept to customer success. Our intelligent data-driven platform comes with best-in-class integrated processes to mitigate risks, protecting your employees, suppliers and brand reputation, and to increase innovation, compliance, profit and customer loyalty. ComplianceQuest is pre-validated and easy to implement, use, and maintain, allowing for streamlined communication and collaboration across the product value chain.
