Environmental & Sustainability Management

Reduce waste, lower emissions, automate regulatory submissions and drive sustainable development at your enterprise

MAKE IT EASY FOR YOUR PEOPLE TO MANAGE, TRACK AND ANALYZE ENVIRONMENTAL AND SUSTAINABILITY METRICS SOLUTION

ComplianceQuest's Environmental and Sustainability Management Solution will help you scale your organization with a holistic approach towards sustainability and environmental consciousness.

Manage ongoing environmental events and automate the creation, collection and reporting of all sustainability KPIs with ComplianceQuest.

Our SaaS solution is designed to help businesses automate the process of proactively mitigating risks related to environment and sustainability. Additionally, it helps enterprises automate the following processes: permit management, reporting of accidents or spills, notice of violations, analyzing potential environmental impacts, and tracking sustainability and emissions data.

Overall, using a data and process-driven approach, we help health, safety and environmental leaders across a wide-range of industries drive change management efforts that helps organizations ensure they are meeting their environmental and corporate responsibility goals.

Head of Compliance & Regulations

Use CQ Environment Management Software to automate regulatory compliance, collaborate with key stakeholders and streamline processes

Support Your Entire Organization

Director of Environment & Sustainability

Proactively identify and mitigate all environment-related risks including accidents or spills, violations and wasteful costs. Make it easier for your team to manage the workflow

Corporate Social Responsibility (CSR) Team/Executive Management

Our Environment Management Solution is easy to use, mobile-friendly, efficient, and includes prepackaged dashboards for quick insights

Key Features of CQ Environmental & Sustainability Management

- Centralize Sustainability Reporting & Record Keeping
- Mitigate Data Input and Calculation Errors
- Regulatory Content Library
- Standardization & Consistency of Data Collection
- Notice of Violation
- Drive Task Completion
- Permit Management
- Reporting & Analytics
- Environmental Spill & Releases
- Collaboration
- Environmental Aspects & Impacts
- Mobile Access
- Complete View of Sustainability Performance
- Social Like & Follow

Complete View of Sustainability Performance

Gain unparalleled insights into specific metrics with real-time dashboards, trending, and benchmarking capabilities

Environmental Spill & Releases

Manage existing and ongoing issues and mitigate the associated risks to prevent these potentially expensive issues from recurring

Notice of Violation

Automate the process of violation reporting and management by easily identifying the specific regulatory publication that is of issue, associated investigations, corrective actions, and mitigation plans

Centralize Sustainability Reporting & Record Keeping

Record key sustainability metrics into a single database for sharing, review & analysis

Standardization & Consistency of Data Collection

Easy direct API Integration to a variety of data sources to reduce the time and resources required to collect data while increasing data reliability

Reporting & Analytics

Create unlimited additional reports and dashboards to suit your requirements to make quick decisions

Mobile Access

Access your EHS solution on the go, anywhere, anytime and on any device

Environmental Aspects & Impacts

Understanding the various aspects and potential impacts of an organization's process are key to mitigate potential negative impacts on our world

Permit Management

Quickly and easily manage a centralized database of all organizational permits including identified prerequisites and clauses to ensure compliance

Regulatory Content Library

Through integrations or uploads, maintain a complete listing of regulatory publications that would be applicable for an organization's locations

Mitigate Data Input and Calculation Errors

Create data validation/entry rules and standardization of calculations for a global footprint

Drive Task Completion

A predefined schedule of monitoring activities and assigning follow-up tasks to employees based on specific metric inputs

Collaboration

Reach out to others across the enterprise and on the environmental team to solicit feedback without having to give up on the ownership of the tasks

Drive Task Completion

A predefined schedule of monitoring activities and assigning follow-up tasks to employees based on specific metric inputs
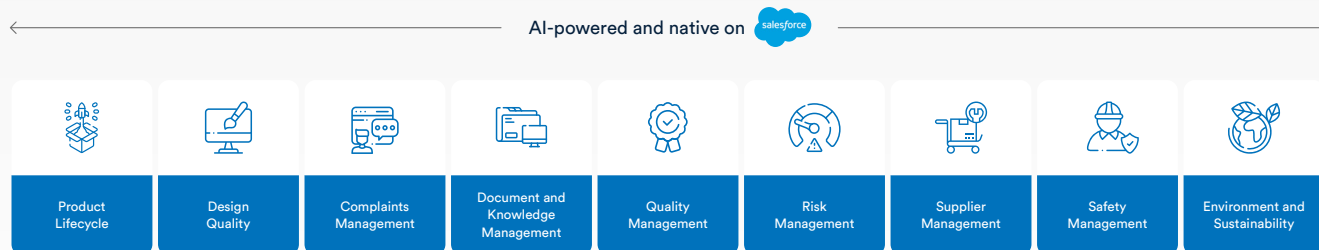

> *We were in the search for a safety portal that would be user friendly for the end users out in the field. That is exactly what we received. With the system being part of Salesforce, it allows us to have one database capturing all of our project details. The best part is that it is mobile friendly. Our workers are able to walk out on the construction site and take photos and document items like safety walks right from their phone. I have to give this system a 5-star rating.*

Barbara LaBarge, Global Safety & Quality Director, Fluence Energy
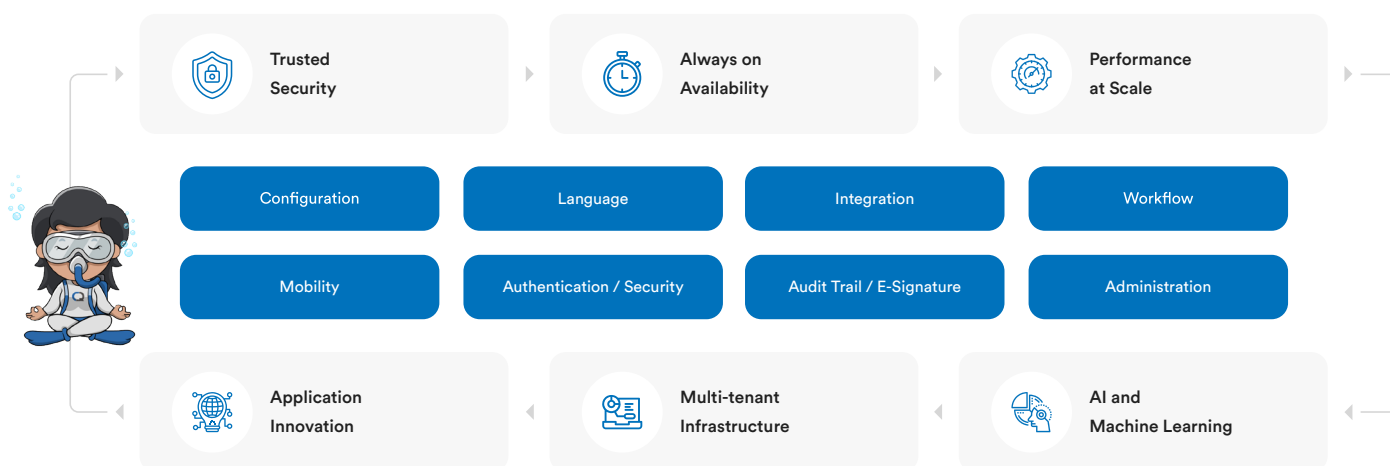

Achieve Your Quest for Digital Operations

CQ intelligently automates operations from product innovation to customer success

AI-powered and native on **salesforce**

Product Lifecycle	Design Quality	Complaints Management	Document and Knowledge Management	Quality Management	Risk Management	Supplier Management	Safety Management	Environment and Sustainability

CQ Solutions Powered by **salesforce** Platform

100% modern cloud infrastructure supports innovation

ComplianceQuest is a 100% native force.com application suite. As such, ComplianceQuest solutions inherit all attributes of the Salesforce platform.

Trusted Security	Always on Availability	Performance at Scale

Configuration	Language	Integration	Workflow
Mobility	Authentication / Security	Audit Trail / E-Signature	Administration

Application Innovation	Multi-tenant Infrastructure	AI and Machine Learning

About ComplianceQuest

Transform to a fully connected business with a **next-generation AI-Powered Product Lifecycle, Quality and Safety management platform, built on Salesforce**. Our connected suite of solutions helps businesses of all sizes increase quality, safety and efficiency as they bring their products from concept to customer success. Our intelligent data-driven platform comes with best-in-class integrated processes to mitigate risks, protecting your employees, suppliers and brand reputation, and to increase innovation, compliance, profit and customer loyalty. ComplianceQuest is pre-validated and easy to implement, use, and maintain, allowing for streamlined communication and collaboration across the product value chain.
