COMPLIANCEQUEST
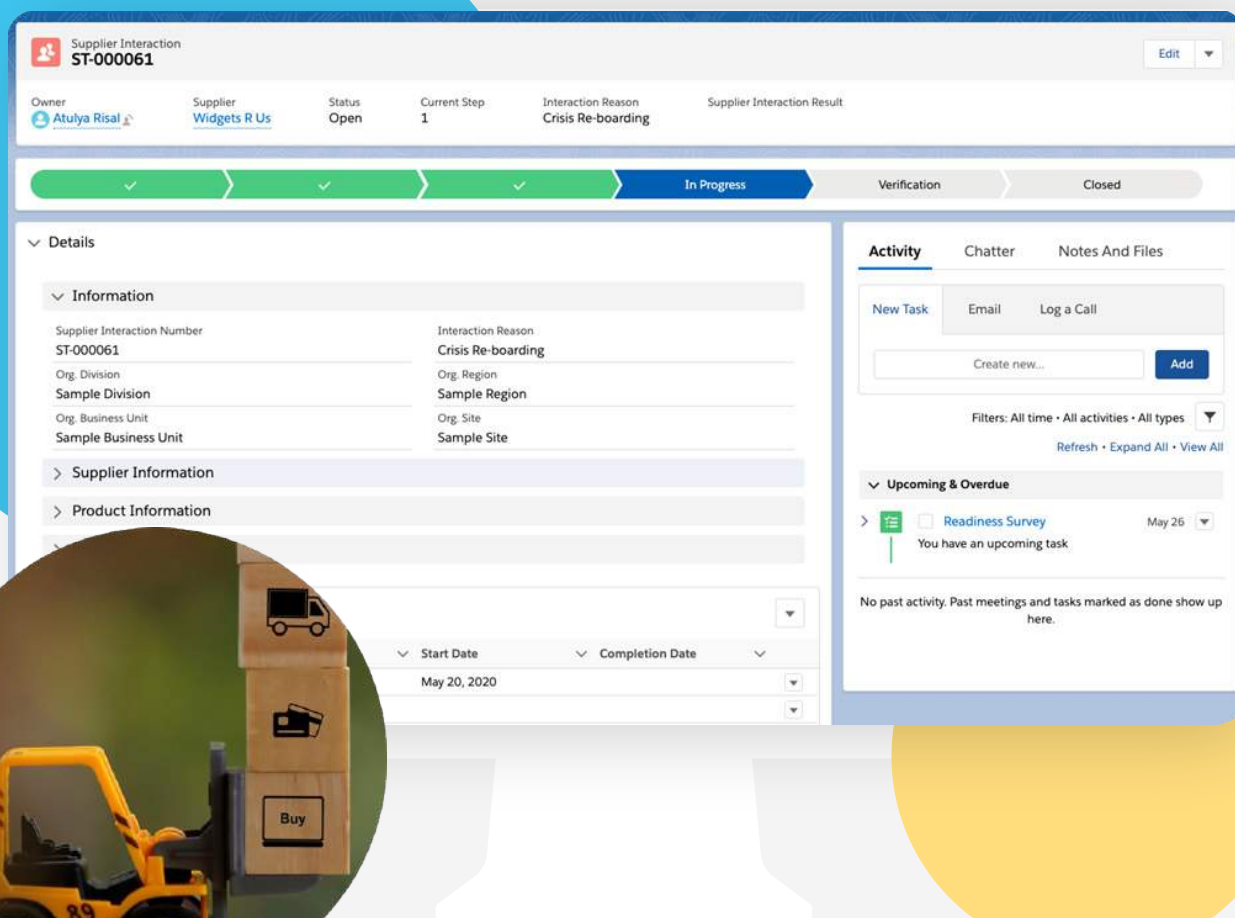

Supplier Management

Streamline your supply chain output by integratingquality, safety, performancemanagement and collaboration tools to increasesupplier performance while reducing risk and cost

PARTNER WITH SUPPLIERS, CONTRACTORS AND VENDORS TO IMPROVE QUALITY AND SAFETY

SUPPLIER MANAGEMENT

> With CQ's Supplier Management, you can take control of your Supplier Quality across all locations, by assessing and qualifying, on-boarding, interacting, collaborating, measuring, and monitoring the performance of your Suppliers.

Managing your suppliers today can be a global challenge, whether you're manufacturing, consumer goods, energy or highly regulated life sciences operations. There's often no visibility into processes or vendor performance, communication and collaboration is difficult with siloed data and disparate systems, and maintaining costs, meeting deadlines, and achieving quality, safety and regulatory standards can prove virtually impossible. Without the capabilities to manage supply chain, uncoordinated and inefficient efforts result in significant financial, quality, safety, brand, and time impact.

Management

Gain complete visibility and transparency of performance real-time data-driven decisions to reduce supplier risk throughout the supply chain.

Quality

Build strong relationships by collaborating with suppliers in a process of continual improvements to minimize product quality and compliance issues and ensure fewer customer complaints.

Manufacturing

Quickly identify and resolve supplier quality and performance issues to reduce cycle time and improve cost savings by eliminating waste and product failures.

Engineering

Effectively engage the best selection of capable suppliers to optimize process and production development accelerating NPI success and financial performance.

Suppliers

Keep abreast of changes, issues, and overall performance indictors in real-time to quickly identify and act on information and areas needing attention promoting continuous improvement.

Procurement

Ease the burden of supplier management and rationalization while ensuring supply integrity by engaging the most reliable and qualified suppliers.

Reporting & Analytics

On-Boarding and Change Management

Social Like & Follow

ON-BOARDING AND CHANGE MANAGEMENT

Helps organizations to streamline supplier onboarding activities so that new vendors, contractors, and suppliers can start supplying goods and services more quickly.

CORRECTIVE ACTION REQUESTS

Provides buyers with a way to manage the SCAR process. Alerts are issued to suppliers about downward trends so they can respond and address issues quickly.

DOCUMENT EXCHANGE

Document exchange process allows users to securely share, distribute, track, and control access to latest versions of content.

PPAP (PRODUCTION PART APPROVAL PROCESS)

CQ PPAP process helps reduce the risk of nonconforming products and delays by managing new parts/material and change requests more efficiently by involving the suppliers in the PPAP process.

RATING AND SCORECARDS

Allows buyers to rate their suppliers and measure supplier performance.

Supplier Central Portal

Collaborate with your suppliers, identify and resolve issues, manage approvals and changes in real-time, exchange documents, two-way visibility of supplier performance through a dedicated Supplier Central portal.

REPORTING AND ANALYTICS

Utilize out-of-the-box reports and dashboards to help get you started right out of the gate. Create any number of additional reports and dashboards.

AUDIT

The audit workflow engine provides best practice functionality to conduct all types of audits – including remote desktop audits.

DEVIATION REQUEST

CQ Supplier Deviation (SDR) provides a complete closed-loop process for managing temporary supplier deviations for received goods, helping reduce data errors.

INCOMING INSPECTIONS AND COA

Allows suppliers to submit their inspection data to buyers in order to receive approval to release a shipment.

PERMIT TO WORK

Ensure contractor compliance to required training and understanding of safety risks at the workplace prior to contractors arriving.

APPROVED SUPPLIER LIST (ASL)

Allows the ASL to be generated and maintained.

MOBILE ACCESS

Access your QHSE (EQMS and SMS) solution on the go – anywhere, anytime and on any device.

SOCIAL LIKE & FOLLOW

Like and follow relevant records in the system and select the method of alerts that conform to your unique workflows and policies to stay up to date on developments.

For the first time, we really understand the depth of our supply chain – particularly as conditions change – and can understand where the weaknesses are. We're no longer chasing down issues and learning of problems too late. ComplianceQuest gives us complete control over our supply chain as we aggressively scale our business."
